

CONDITION OF OMAHA'S TRADE

First Week in September Shows Up All Right as Regards Trade.

JOBBERS HAVE ABOUT ALL THEY CAN DO

Live Stock Continues to Command High Prices to Satisfaction of Growers, While Meat Eaters Complain Loudly.

During the month of August the general retail trade of Omaha seemed rather dull and the volume of sales outside of a few large business houses, was small. With the opening of September improvement was noted, as the people who had absented themselves from the city in July and August began returning and trade seemed to take on new life.

With the jobbers the week just closed was entirely satisfactory. The demand for merchandise was not so strong as it was a few weeks ago, but the volume of business was gratifyingly proportionate.

Merchandise Values Continue High. Values on all kinds of merchandise continue very high and still advance at a rapid rate.

Down in the produce district there is a fair trade going and the return of people to the city and the fact that the consumption of the daily papers, some of the advances appear to be due to a combined effect of the output and the demand for the product.

Business in South Omaha. At South Omaha a very fair business is going and the live stock market is in good shape. Values are high and the demand for hogs and sheep are high.
